History:

I think that will about cover it. The further discussions part is what we're particularly interested in.

Thanks Rick!

So, regarding agenda, are these the main topics you'd like to discuss?

1. CB Watershed Model (NRCS questions, EPA overview of model information available, and steps to take to continue discussions).
2. Improving tracking of ag conservation (NRCS and EPA roles).
3. Coordination with Chesapeake CEAP project (coordinating communications of results, etc.)
4. Others?
